

## **E-Readers Trial Project – term 3 2012**

This policy outlines the use and availability of the e-readers. Prior to being made available to students, library staff will receive training in the use and management of the e-readers and can trial them during this time.

After the induction period the following rules will apply.

- e-readers are for student use (first preference given to those students doing the Premiers' Reading Challenge)
- Students and parents must complete an e-reader Use Agreement prior to borrowing.
- The e-readers are to be kept in the library and can be borrowed by students in the same manner as other resources.
- They can be borrowed for 2 weeks, but must be returned after that time (no re-borrowing)
- When returned, the e-reader is to be recharged prior to reloading.
- The chargers stay in the library and are not lent out.
- Initially the e-readers will be loaded with books suitable for the Premiers Reading Challenge.
- Students are not to load any additional books or data onto the e-readers.

NB. This policy will be reviewed during and after the trial.
